## Mother and Child in Cape Maclear

### December 2021

[www.jeannette.tremele.nl](http://www.jeannette.tremele.nl)

Dear all,

Over the last few months my life has rapidly changed. Per 1 August I'm not working for Billy Riordan Memorial Clinic anymore. Because of Timba and Kesiya (our daughters) getting older, 14 and 10 now, we needed to look for further education after years of homeschooling. We found schools in Blantyre, which meant moving to Blantyre and looking for a new job for me. I've found a full time job in a clinic connected to the College of Medicine per 1 August and the girls have started school from September. We're all well, but missing the village and the lake in Cape Maclear.

The Mother and Child in Cape Maclear Foundation is still supporting the feeding program in Billy Riordan Memorial Clinic as long as the funding is there. Sheila, an Irish nurse, who I've been working with for many years will continue running the program. We focus on the feeding program and stopped the transport and school fee support.

Currently approximately 100 children benefit from the feeding program.

I would like to thank everyone for all your support and wish all of you happy holidays and best wishes for 2022!!

Best regards,

Jeannette
